## SLUMMING IN NEW YORK.

FORD'S INVESTIGATING COMMITTEE VISITS THE ITALIAN QUARTER.

And See the Manner in Which These Unfortunate People Live—Misery and Destitution on Every Hand—As Bad as the Chinese Quarters of San Francisco.

New York, July 28.—Members of the Ford investigating committee of congress made a midnight visit Thursday night to the wretched slums in the Italian quarter to gain a personal knowledge of the destitution existing among those miserable people. They were escorted by detectives to the house, 116 Mulberry street. There they forced an entrance, despite the unwilling proprietor, and ascended the rickety stairs to the bell holes above. Men were found hideously dirty and some naked, huddled in the rooms. Five Italian women in one cubbyhole sprang up in display when the committee entered. A powerful stench arose on all sides.

In an adjoining cubbyhole was found five women. They sprang up from their rude couch when awakened by the sudden light, and uttered piteous crooning cries of surprise. When their fears were quieted, they gazed about them with wild dismay. They clasped their babies in their arms with a fervor that was positively pitiable. There were three of the "lamb na." None of them was over a fortnight old. One of them had had opened its eyes to the light of life but three days ago. Its mother was a rarely beautiful woman of seventeen years. This last child, she told the interpreter, was her fourth. She had married before she reached her teens.

The committee crossed Mulberry street, and, descending through a low corridor, passed under the main building, No. 115, into a flagging laid yard on the rear. The walls of the tall tenements rose on three sides to five or six stories, and above could be seen the dark cloud-swept sky. On benches about the yard lay several men, and on the top of a landing, reached by a short and shivering stairway, lay six boys. Though the officers walked among them and flashed the candle glare in their faces, they slept. Their faces were upturned in nearly every instance, and want, anxiety and misery pictured on their dark visages.

Now, the line of march is down Mulberry street across canal, toward what is called "the Bend."

"What is this?" anxiously asks a bleary-eyed scavenger on the corner. "Is it a raid?"

Already the word has preceded the committee, and at each gloomy entrance to the noxious courtways stands groups of swarthy figures, half dressed and half asleep, clutching in their arms all their worldly goods. The stale beer cellars were aglow with light and up the slimy stairways, debauching on the sidewalks, came the vilest tobacco smoke.

Then they went into an old stale beer dive, with greasy walls and heaps of dirt in the corners. It was hardly eight feet square. On the floor lay two full grown men, who grunted at being disturbed, and then settled over and went to sleep. Not a window or a door was open until Crystal burst in. It was some moments before even Mr. Ford with his cigar burning furiously, could enter.

A second within was enough. A glance showed that the sleeping "beauties" were Italians of the lowest order. Right behind this stinking room with its eight human beings, was one horse in a well built stable, twice the size of the room and immeasurably cleaner. Close by was another room filled with shovels, men, old bones, women and bundles of dirty rags. It, too, was closed up so tightly that not a breath of air could get in.

A long row of Italians fast asleep on the cold stones or on bags, stretched the whole length of the two houses. One of them, half awake, made a kick at the detective as he passed, but realizing what he had done, got on his knees and begged for mercy. The testimony, taken down by the light of the detective's lantern amid such surroundings, with a score of doped, hungry looking Italians grouped about on the stones, made a deep impression on the committee.

Other buildings near by were investigated with similar result. Every where were men without work. They said they lived by their wits, which meant by theft and mendacity.

"Better here than in Italy?" asked one congressman. A shrug of the shoulders was the only reply.

The Italians called themselves "mules, burros, fools, dogs." They had been defuded by the agents—Padrones.

"This is as terrible as the worst parts of the Chinese quarter in San Francisco," said Col. Morrow, when he got a few long breaths after regaining the street.

Mrs. Cleveland in the Bay State.

New Bedford, Mass., July 28.—Mrs. Cleveland, Mrs. Folson, Richard Wolcott Gilder and his sister, Miss Jeanette Gilder, accompanied by General Passenger Agent Currie, arrived in Marion about 9:30 a. m., in a special train from Fall River. They were expected to come by the regular train two hours later, and as a consequence the station deserted. The party went at once to Mrs. Gilder's summer home, where the party will remain a short time as guests.

Mr. Randall on the Mead.

WASHINGTON, July 28.—Mr. Randall continues to improve rapidly in health. According to the present arrangements, he will leave for Wayne postoffice, near Philadelphia, to-morrow morning at 9 o'clock, where he will take up his residence at the house of Mrs. J. Ballage Cox. Either Dr. Martin or Dr. Mallan will accompany the party.

Their Third Marriage.

New York, July 28.—A private dispatch from London says that the Duke and Duchess of Marlborough have had the legality of their marriage established in England. They went before the registrar at the Vestry hall, Mount Saint Grosvenor Square, London, and their marriage duly recorded.

Chiara's Life Spared.

New York, July 28.—Shortly after noon a dispatch from Governor Hill, commencing the sentence of Chiara Cignarelli, the Italian woman who murdered her husband, to imprisonment for life was received by William F. Howe, the woman's counsel.

## 'BONFIELD'S SUSPICIONS.

He Believes Johann Most to Be the Arch Conspirator.

CHICAGO, July 28.—There is a possibility, if no more, that the prosecution of the Bohemian dynamite conspirators may result in the capture and punishment of more important criminals. Appearances point to

JOHANN MOST.

John Most as the arch conspirator. His trial show at intervals all through the plot. State's Attorney Longnecker, and Inspector Bonfield are pretty well satisfied with the outlook as to the four Bohemians, but their hearts yearn for Most. They are convinced that he belongs in the dock with the Bohemians and no stone will be left unturned to put him there. This will be a difficult matter and they do not pretend to deny it. Neither will they move toward his arrest until his crime can be charged home to him without chance of a miscarriage of justice.

Bonfield is working steadily and patiently, and with considerable hope of success. Considerable information which, from the nature of things, cannot be made public, is already in his hands, and there is a chance at every turn that the missing links may be picked up. It can be said, however, that documents of various kinds found in the possession of the prisoners lead the trial outside of Chicago and in the direction of New York.

Several friends of Rudolph Sevic, the Bohemian gunsmith, who scheduled property to the amount of \$30,000, were accepted by Justice Lyon this morning as sureties on his bond of \$7,000. Later Sevic's friends presented themselves to the clerk of the criminal court to secure his release. But as several more indictments have been returned against him in which bail has not been fixed, they were unable to restore him his liberty.

The Bomb Did Not Work.

CHICAGO, July 28.—An unsuccessful attempt was made shortly after 3 o'clock a. m. to blow up the house of Christopher Kruger 675 Lincoln avenue. The agent used to do the work was a dynamite bomb made out of a piece of ordinary two inch welded gas pipe about eight inches long, and if it had been prepared by a person of ordinary mechanical intelligence, it would have done a great deal of damage, and the loss of life would have been appalling, as there were a dozen people in the house at the time.

THE FIRE FIEND.

Three Lives Lost at Maynard, West Virginia—Incendiary.

MARTIN'S FERRY, O., July 28.—At Maynard, W. Va., a mining town of 500 persons, near here, two large two-story frame boarding houses, occupied by A. K. Brantner and William Prosser, burned and three persons perished in the flames. Over twenty-five miners were in the house. The alarm was given at midnight, but the flames spread so rapidly that all could not escape.

Prosser, a married man, aged fifty, and his ten-year-old son John, and Willie Morgan, aged ten, were burned to death. John Morgan, brother of Willie, received probably fatal injuries in jumping from the window. The father of the two boys is visiting in Europe. Only the most strenuous efforts saved the town. Nearly every occupant was left penniless; Thursday was monthly payday, and all the money was burned.

The fire was of incendiary origin, and one Adam Kerr is the suspected party. It is asserted that he declared his enmity for Prosser and threatened to burn him out. If his guilt is proven he will have scant mercy from the stricken people.

Summer Theater Destroyed.

St. Louis, July 28.—The summer theater at Schneider's garden, a very popular place of resort in the southern part of the city, was burned last night. The fire broke out about an hour after the performance closed, and the entire establishment was destroyed, including the personal wardrobes and effects of the singers. The company was composed of people from nearly all of the summer opera troupes, and the loss will be heavy on the performers.

A Paper Mill Burned.

NORWOOD, Mass., July 28.—Isaac Ellis' large brick paper mill was burned Thursday night with the contents. Loss \$40,000; covered by insurance.

A Truly Righteous Sentence.

PITTSBURG, July 28.—Joseph Welsh, who created a reign of terror some months ago among the women of the fashionable East End, by assaulting and robbing several prominent ladies in broad daylight, was sentenced to-day to twenty-five years' imprisonment at hard labor in the Riverside penitentiary. One of his victims, Mrs. B. L. Wood, the wife of a wealthy and prominent citizen, died last Monday of paralysis of the heart, the result, it is believed, of the nervous shock sustained at the time of the robbery and assault.

May Live Again in Sweet Bloom.

NEW YORK, July 28.—A rather curious disposition has been made of the ashes of Edward E. Munch, who was incinerated at the Fresh Pond crematorium, in Long Island, on July 10. His ashes, weighing about five pounds, were, in accordance with his wishes and those of his wife, scattered over one of the flower beds on the lawn in front of the retreat house, where they are still plainly discernible.

## THE BURLINGTON OUTLOOK

EASTERN ENGINEERS PREDICT AN EARLY SETTLEMENT.

They Are Distrustful of Chief Arthur, and Say He "Is a Good Fair Weather Leader, But a Failure When a Storm Breaks."

The Glass "Troubles Ruled."

CHICAGO, July 28.—From an interview with a member of the eastern engineers on their way home from the St. Joseph convention, it is understood that they are satisfied with the outlook and predicted that the Burlington would be forced to make mutual accessions within a short time, and the projected confederation would be a success.

A New York Central engineer when asked how Chief Arthur stands with eastern men, said: They have grown distrustful of Mr. Arthur, and the events of the last two weeks will not tend to allay the suspicion that he is not the right man to have at the head of a great labor organization in case of an emergency.

"In my opinion Arthur is a good fair weather leader, but a failure when a storm comes. He weakens first as soon as he found that the Burlington was going to make a fight. Instead of making an aggressive fight, he abandoned the battlefield in the heat of the conflict, and went home. He refused to attend the joint session just ended, and does not hesitate to denounce any attempt to amalgamate the various unions of railroad employees."

"He calls that conservatism. We have a different name for it, and when the time comes, Mr. Arthur will learn that his policy is not endorsed by the Brotherhood of Locomotive Engineers. The plan of federation will go through, I am sure."

Will Wipe Out the Pinkertons.

CHICAGO, July 28.—The proposed independent political club of railway employees meets with considerable favor from all classes of railroad men. The committee appointed at the Sunday mass meeting is at work upon a plan of organization and a constitution, both of which will be submitted at a meeting to be held a week from Sunday. The committee has entered into correspondence with leading railroad employees in all parts of the state with a view to making the organization an extensive and powerful one.

"There are enough railroad men in Illinois," said a member of the committee, "to hold the balance of power. I would estimate their number at fully 3,500. We propose to wipe the Pinkertons off the face of Illinois and propose to do it in a peaceable legal manner."

Glass Troubles Over.

PITTSBURG, July 28.—It a conference of glass bottle blowers and manufacturers here Thursday, the wage scale for the ensuing year was amicably arranged and the 5,000 workers in the west will resume operations when the fires are started in the furnaces September 1. The scale slightly advances wages on novelties, but otherwise is the same as last year's.

ACROSS THE PACIFIC.

Cholera at Hong Kong—Missionaries in Danger in Corea.

SAN FRANCISCO, July 28.—The steamship City of Peking from Hong Kong and Yokohama arrived here Thursday. She will be quarantined for three days on account of the reports of the existence of cholera in Hong Kong.

She brings advice giving the particulars of the ements in Seoul, the capital of Corea, which occurred on June 30. It originated in the revival of the absurd rumors directed against foreigners.

The Gazette states that some Chinese spread a report that a number of Korean children had been purchased by American missionaries, put to death and boiled for medicine. This report greatly excited the natives, and the government, anticipating an outbreak, took the precaution of calling in the missionaries from the country districts and placed them in an out of the way place for safety. Nine Korean officials who were charged with consummating the sale of the children were seized by the infuriated populace and put to death by decapitation. The execution took place in the public street.

News of the outbreak was sent by the foreign residents at Seoul to Chemulpo to the commanders of the foreign war vessels there and assistance requested. On the night of the 19th inst., the men of war, Essex, American, and the Aspec, French, and a Russian cruiser landed three detachments of men, who proceeded in separate bodies to Seoul to protect to the authorities there. Meanwhile the Korean officials had sent bodies of troops to guard the foreign consulates. Further details are lacking.

The American man of war Juniata started from Chemulpo on June 21 to proceed to the scene, but went ashore near Gough island. She was got off safely on the following day and proceeded on her way.

During the week preceding July 2 ninety deaths from cholera occurred at Hong Kong.

A Deputy Sheriff Lynched.

WAHPETON, Dak., July 28.—Miss Mollie Korbel was shot and killed by Deputy Sheriff L. S. Elmer Wednesday evening. No provocation was given for the deed, and the populace became enraged, and all evening the town was filled with angry farmers and citizens, who threatened lynching. At 2 o'clock Thursday night a masked mob of about one hundred men overpowered Sheriff Miller and Deputy Bronte, and took the murderer out. They carried him to the bridge over the Bois De Sioux river, and after asking if he wished to pray and receiving the reply "No," he was strung up and left to hang until daylight. The sheriff did all he could to prevent the lynching, but would not fire at the lynchers, who were all his friends.

The Elopers.

LOS ANGELES, July 28.—A last evening's paper says: "A reporter who formerly occupied a position on the staff of the St. Louis Post-Dispatch, while standing at the Santa Fe depot in this city, Thursday, saw a man and woman on a northbound train whom he identified as Editor Henry W. Moore and Mrs. John W. Norton, the runaway couple from St. Louis and Topeka."

Tom Ramsey, the Louisville base ball inebriate, took the insolvent debtor's oath Thursday and was released from jail, where he was held on a saloon debt.

BASE BALL.—Athletics 13, Cincinnati 2; Louisville 8, Cleveland 2; Brooklyn 9, Kansas City 7; St. Louis 7, Baltimore 1; Detroit 8, Chicago 1; Pittsburgh 8, Indianapolis 1; Washington 5, Boston 4; New York 5, Philadelphia 1.

Seward, of the Athletics, shut the Cincinnati club out without a hit Thursday. The feat has been accomplished twice before this season, by Porter, of Kansas City, against Baltimore, and by Terry, of Brooklyn, against Louisville.

ELECTRIC PNEUMATIC TUBES.

An Invention by Means of Which Mail is Sent at Lightning Speed.

NEW YORK, July 28.—A young man, Henry Clay, is at work in a subcellar at 64 Broadway, making an electric pneumatic tube, which he claims will be a vast improvement on that in use in Europe. He says:

"I can start a letter or package from here to San Francisco at noon, and it will arrive there at 1 o'clock, just one hour, taking the difference of time into consideration. I began to study out a plan whereby two tubes, a positive and a negative, provided with switches, operated initially from the starting point, or from any one intermediate station, could be made to work. In 1894 I secured patents for this country and Europe for the perfected tube, and to-day I have completed my experimental switch and it works like a charm."

Mr. Clay will leave for California as soon as the Broadway tubes are started. A company headed by Messrs. Tiffany and Mackay has the franchise for San Francisco and adjoining cities. Mr. Clay has had more capital offered him than would put a brass tubing girder around the earth.

Chinamen Crossing the Border.

ELENTOWN, W. T., July 28.—News has reached here of a continued flow of Chinamen into the United States across the border from British Columbia. The steamers of the Canadian Pacific between China and Vancouver bring hundreds of Mongolians every two weeks. After landing they go eastward into British Columbia. They work their way across from Osoyoos lake down the Okanagan river through a number of placer mines, that are monopolized by Chinese, and eventually find their way to the settlements of the whites.

Evictions in Iowa.

WATERLOO, Iowa, July 28.—Last Monday afternoon Deputy United States Marshal Holbrook, of Fort Dodge, attempted to evict August Groenbaugh, one of the settlers on the Des Moines river lands. The marshal's force had got five loads of goods from the house when they were fired upon from the cornfield. The marshal's horse was badly wounded, and the marshal received part of a charge of buckshot. He then gave up the job and withdrew. This is the second unsuccessful attempt to evict Groenbaugh.

Treaty Still Unsigned.

STANDING ROCK Agency, Dak., July 28.—Sitting Bull is still absent, but the council is going on just the same. Judge Wright occupied most of Thursday explaining the provisions of the proposed treaty. He was listened to respectfully, but as far as can be learned no change in the sentiment of the Indians has been effected. Mad Bear and other chiefs talked against the treaty, but Black Bull, who has already adopted the ways of white men and runs a little farm about ten miles out from the agency, is willing to sign it. In the private council Tuesday night Gall, Two Bears, John Grass and other chiefs talked against the treaty and declared that they would not sign. It will require a great deal of argument to get even a foothold at this agency.

### DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,  
Proprietors.

SATURDAY EVENING, JULY 23, 1888.

#### Workingmen and Wages.

The question of wages is an interesting one to workingmen at all times, but it is especially so at present.

Republicans are industriously engaged in trying to convince the laborers of this country that their wages depend upon the success of that party, and the maintaining of a system of tariff that is taking more than \$100,000,000 of the people's money every year than is needed by the government, and piling it up in the U. S. Treasury. They never lose an opportunity to harp on this question. High tariff, they say, insures high wages, and then they charge the Democrats with being "British Democrats" and "Free traders" and all that, and that they are trying to destroy the country. This is all campaign twaddle. Don't they know, doesn't every one know that Democrats are just as much interested in this country and its prosperity as the Republicans are? Don't they know that Democrats are just as much interested in maintaining high wages for the workingmen of this country as Republicans are? But about this question of wages.

High tariff does not guarantee high wages. The statistics of the Labor Bureau at Washington proves this beyond a doubt. The truth of the statement is best shown by a comparison of the average weekly wages paid in Germany, Austria and France with those paid in England. England has a low tariff, and Germany, France and Austria all have a high tariff. In fact Germany is among the "highest protection" countries on the earth. Here is the comparison:

AVERAGE WEEKLY WAGES OF BLACKSMITHS.

Austria.....\$3.18 } England.....\$7.73

France.....5.81 } Germany.....4.00

AVERAGE WEEKLY WAGES OF BRICKLAYERS.

Austria.....\$3.55 } England.....\$7.56

France.....5.74 } Germany.....4.21

AVERAGE WEEKLY WAGES OF CARPENTERS.

Austria.....\$5.10 } England.....\$7.66

France.....6.14 } Germany.....4.21

AVERAGE WEEKLY WAGES OF PLASTERERS.

Austria.....\$4.01 } England.....\$7.90

France.....6.34 } Germany.....4.43

AVERAGE WEEKLY WAGES OF PRINTERS.

Austria.....\$4.85 } England.....\$7.23

France.....6.64 } Germany.....5.09

AVERAGE WEEKLY WAGES OF TAILORS.

Austria.....\$3.03 } England.....\$7.23

France.....5.02 } Germany.....3.41

AVERAGE WEEKLY WAGES OF TINSMITHS.

Austria.....\$3.70 } England.....\$6.56

France.....5.46 } Germany.....3.55

The comparison could be continued at greater length, but the above is sufficient to show that a high tariff does not insure high wages. Low tariff England pays her tinsmiths, plasterers, printers, tailors, carpenters, &c., nearly double the wages that high tariff Austria, France and Germany pays. The comparison shows more. It shows that the lowest wages are paid in Germany which has the highest tariff of the countries named, while the highest wages are paid in England, which has the lowest tariff of the countries named.

This ought to convince workingmen that a high tariff will not insure them high wages.

A sensible man ought to know that in wages as in most everything else the rate is fixed by the supply and demand.

But let us bring this question nearer home. This is a high tariff country. We have a cotton mill here in Maysville. Cotton mills are among the "protected" industries of this country. Now what are the weekly wages paid in the Maysville Cotton Mills? From information at hand they are as follows:

Lappers.....\$ 5.00

Packers, men.....4.50

Packers, women.....3.00

Spinners, four-side.....3.00

Spinners, three-side.....2.00

Spinners.....2.00

Spoolers.....2.00

Twisters.....2.00

Drawers-in.....2.00

Carders.....6.00

Card-grinders.....	8 10
Helpers.....	3 00
Dollers.....	1 15
Hobbin-carriers.....	1 15
Cantenders.....	2 00
Engineer.....	12 00
Stubbers.....	2 50
Speeders.....	3 50
Hankers.....	2 25

The list is not complete. The highest figures furnished us are given in each of the classes named. Another point to be remembered is that the hands are required to work from 6:30 a. m. to 6:30 p. m., being allowed half an hour for dinner, making eleven hours and a half they work every day. We are further informed that some hands get only 65 cents and 75 cents a week. Now for the comparison:

From the first annual report of the Commissioner of Labor, 1886, we find that cotton mill hands in England work but ten hours a day. At two of the England mills mentioned in the report—selected at random—the weekly wages are as follows:

Lappers.....	\$ 5.76
Packers, men.....	4.08
Spinners.....	8.82
Twisters.....	4.46
Drawers-in.....	5.16
Card-grinders.....	5.46
Hobbin-carriers.....	8.90
Cantenders, women.....	3.56
Engineers, women.....	10.80
Stubbers, women.....	4.32
Speeders, women.....	4.32

The comparison is as complete as possible with the information at hand. It will be seen that the cotton mill hands of low tariff England—"free trade England"—as the Republicans persist in saying—get as good, if not better, wages than the cotton mill hands right here in Maysville get. Our sole object in publishing the above is to show that a high tariff does not guarantee high wages. We think the above is conclusive on this point.

Hon. Robert A. Cochran, President of Harrison and Morton Club, is one of the main men in the Maysville Cotton Mills, and if we have been misinformed about the wages paid his hands we will be glad to hear from him and correct any errors.

The Democrats of Georgetown, Ky., have organized a club with a membership of four hundred.

The Republican State campaign in Ohio will be opened at West Union Aug. 25th, by Governor Foraker.

The Democrats of Mason should keep step with the surrounding counties. Let clubs be organized in every precinct.

KENTON COUNTY has eight well-organized Democratic clubs with a membership of nearly two thousand. They expect three thousand members before the election. The Democrats of Campbell have nine clubs, with a good membership.

MASON COUNTY stands sixth in the State in the average assessed value per acre of land. The following gives the counties leading her and the value per acre in each: Fayette, \$56.23; Woodford, \$45.58; Bourbon, \$41.18; Kenton, \$41.09; Jefferson, \$40.90; Mason, \$36.83.

The Prohibitionists of Minnesota denounce the free whisky platform of the Republican party in strong language. The following is their resolution on the subject:

Resolved, That the announced intention of the Republican party to remove from tobacco and intoxicating beverages the lateral revenue taxes without abolishing the saloons, and for the purpose of maintaining a high protective tariff upon articles of necessity in ordinary use, will result in cheap whisky and tobacco and high-priced clothing, and is opposed to the best interests of the people.

Don't be surprised if the Republicans should fall to carry Minnesota next fall.

Attention, Democrats of Chester.

Those who have signed the roll and all others interested in organizing a Cleveland and Thurman club are requested to meet at Dieterich's Hall next Monday evening at 7 o'clock. Speeches will be made by Judge Wall, Messrs. George W. Sulser, L. W. Galbraith, Thomas R. Plister and others. The membership committee is composed of the following: C. P. Dieterich, M. C. Hutchison and J. Wesley Young.

The first camp meeting of the Methodist Episcopal Church on Fourth street closed last Sunday with a crowd variously estimated at 1,500. The gross receipts, we are informed, for the three Sundays were \$585.60, the expenses were \$271.40, thus enabling the church to realize the neat sum of \$314.20. Rev. Moreland regretted very much his inability to successfully display "The Falling Walls of Jericho." He will preach at his church to-morrow at 11 a. m., subject, the "Tabernacle;" at 8 p. m. from the subject, "A Lonesome Achievement."

W. W. Weedon's Sureties. A Washington City special says: "A Kentucky bill took up a good deal of the time of the House Thursday afternoon, but was finally withdrawn, because it was evident that it could not be put through, and it was not desirable to have it defeated and thus lose all chance of getting it through at this session. As the case stands, there is but little chance of its ever passing the House."

"The bill in question was brought up by Mr. Thomas, and was for the relief of the administrators and sureties of W. W. Weedon, of Maysville, who, through a mistake, took the contract for mail messenger transfer and station service at Cincinnati for much less than it could be performed. It is claimed that the mistake under which the contract was taken was caused by an error in the government advertisement. The bill proposes to pay to Mr. Weedon's administrators and sureties the difference between the figures at which the deceased undertook the work and its actual cost. Mr. Thomas fought for the bill, and was assisted by Mr. Kerr, of Iowa. Springer, Blount and Cobb, of Alabama, fought it and said that it would establish a dangerous precedent.

"The bill was withdrawn from the fray, after a sharp wrangle, the House having shown it was against it."

Festivity at "Maplewood."

## INDIGNATION AROUSED

IN LONDON BY THE ARREST OF JAMES O'KELLY, M. P.

The Nine Hundredth Anniversary of the Introduction of Christianity into Russia Celebrated—Turkey Building Fortifications—Foreign Notes.

LONDON, July 28.—The arrest of James O'Kelly, member of parliament, the discussion of the last few days in the house of commons of the Parnell commission bill, and the wholesale evictions which have taken place in Counties Clare and Galway, from the Vandeleur and Lewis estates, have combined to revive the for some time dormant public interest in Irish affairs.

While no act of the government or its servants can or will heighten the exasperation of the Irish peasant, the temperature of whose hatred toward England and all things English never falls below the boiling point, the feelings of the average Londoner, he be Home Ruler or Tory, ebb and flow with the tide of excitement which current events may produce.

If matters are quiet in Ireland, he dismissed from his mind all thoughts of her sufferings or her needs, but the moment something occurs to invite general attention to that unfortunate portion of the empire, the lines become sharply drawn and the coldness of partisan passion boils viciously. While nobody sympathizes with Capt. Vandeleur, the notorious Clare absentee landlord or cares a rap whether he gets his rent or not, every Tory is roused to interest in the successful ejection of the tenants from his estate because they cannot or will not pay the sums he demands, while every Home Ruler is convinced that the unfortunate victims of the landlord ought to retain their holdings whether they pay or not.

The arrest of Mr. O'Kelly has created more excitement and aroused a greater degree of indignation than even the arrest of Mr. Dillon did, and no doubt the comments upon the government's action in his case which will form the subject of league speeches in Ireland during the next fortnight will insure the arrest of other members of the house, who, as yet have formed no definite idea of defying the government by indulging in seditious utterances expressing their indignation at its action and contempt for its officials.

The Nine Hundredth Anniversary. KIEV, July 28.—The nine hundredth anniversary of the introduction of Christianity into Russia was celebrated here with great pomp. A number of bishops and deputations from Asiatic and European Russia were present. The leading ecclesiastics of the Greek church were also in attendance. Gen. Ignatieff, as president of the Slav society, took a prominent part in the proceedings. This means vastly more than an ordinary religious celebration.

The political ambitions of Austria are inseparably interwoven with the Greek church. It is the religion of the Slav, and it is upon the fact that the peoples of Bulgaria and of the other Balkan states profess that religion, rather than upon consideration of race, that the czar rests his claim to dominant influence in the Balkans. The fact is the Bulgars are not Slavs. The church is the most potent engine through which operates the Slav Benevolent society, which were better named Russian Conspiracy association.

The Metropolitan, Clement of Bulgaria, is the tool of Russia, and is in open opposition to Ferdinand, who is a Catholic. It is fortunate for the latter that of late years influence over the peasantry of the villages has been divided between the school teachers and the ignorant popes, as the priests are called. Indeed the schoolmaster's influence is dominant, and he is opposed to Russian interference.

Most momentous results may be expected to follow upon the plots organized here by the most experienced of Russian plotters. Ignatieff, Zankoff, Zaraveloff, Nikosoroff, Gruelf, Bendereff and a host of Russian refugees and conspirators are here for no other purpose than to organize revolutionary proceedings in Bulgaria, and very probably Roumania also. Only last year many conspirators of the Zankoff party were beheaded and they will not hesitate to kill Ferdinand, at which Germany will wink.

Turkey's Alarm. ST. PETERSBURG, July 28.—The Journal de St. Petersburg denies the statement published in the Journal des Debats, of Paris, that the meeting of the emperors alarmed Turkey and that she will take military precautions. She has been, however, alarmed for some time, and is busy fortifying her last ditch at Adrianople.

Foreign Notes. The Paris Gallois says that M. Janssens, the governor general of the Congo state, fears that the Stanley expedition has been attacked and defeated.

William has embraced his relative, King Oscar of Sweden, and was Thursday fated at Stockholm. Next he goes to visit King Christian of Denmark, who with a small fleet has left Copenhagen to meet him.

The king of Greece, who is on his way to St. Petersburg, had an interview Thursday with Count Kalnoky. The prime minister assured his majesty of Austria's sympathy with Greece, which he said she regarded as one of the main ramparts against Pan-Slavism in the Balkans.

Emperor William has ordered that his military encourage hitherto called in French "Maison Militaire" shall in future be designated a "Headquarters of His Majesty, the Emperor and King." This is hardly necessary for the Germanizing of Alsace-Lorraine, and is in the line of deliberate aggravation. Hatred of France is being encouraged for a purpose.

Berlin journals generally consider the reference of the Journal de St. Petersburg to the personal relations of the Russian and German courts as indicating the marriage of the czar with the Kaiser's sister, Princess Victoria. In this view it is expected that the betrothal will be announced when the czar's visit to Berlin. But then Victoria is supposed to have a tender regard for Alexander of Battenburg.

A Virginia Lynching. DANVILLE, Va., 28.—Near Meadville, in Halifax county Thursday, Bruce Younger, colored, committed an assault upon Mrs. Robert Dodge, a well known lady of the county. Younger was caught and taken before a justice of the peace who sent him to jail. A party of indignant men went to Halifax Thursday night, and took Younger from jail and hanged him to a tree.

# Which Do You Want, AMERICAN OR ENGLISH WAGES?

American wage-earners, look in the right-hand column and look in the left-hand column, and decide which wages you would rather have. Remember also that official figures show that the cost of living is about seventeen per cent. higher here than in England.

But what does it profit a man if he does gain seventeen cents per day by reduced cost of living and at the same time lose \$1 per day in wages?
